**TEMPLATE FOR PROGRAMME SPECIFICATION**

## HIGHER EDUCATION PERFORMANCE REVIEW: PROGRAMME REVIEW

### PROGRAMME SPECIFICATION

This Programme Specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. It is supported by a specification for each course that contributes to the programme.

1. Teaching Institution	AlKindy college of medicine
2. University Department/Centre	Department of Surgery
3. Programme Title	Ophthalmology module of 5 <sup>th</sup> year
4. Title of Final Award	Bachelor of Medicine and General Surgery
5. Modes of Attendance offered	Program of the scientific committee for examinations in the College of Medicine
6. Accreditation	1.33 units(20 hr theory), 1.33 units (40 hr. clinical)
7. Other external influences	Hospital clinical teaching, Osce
8. Date of production/revision of this specification	17-1-2021 review for year 2021 -2022
9. Aims of the Programme	
To understand the pathology and clinical presentation of common conditions affecting the eye and visual system.	
To understand which symptoms and signs signify potentially serious disease	
Familiar with appropriate investigations in ophthalmology	
To appreciate the handicap, educational and social consequences of visual loss at different ages	

## 10. Learning Outcomes, Teaching, Learning and Assessment Methods

### A. Cognitive goals

- A1 Providing students with information about various eye diseases
- A2. Clinically training students on methods of taking a history of illness
- A3. Clinical examination in small groups
- A4.
- A5.
- A6.

### B. The skills goals special to the programme .

- B1. clinical activity (Case presentation & evaluation , clinical skills. Visual acuity assessment ,direct ophthalmoscopy and slit lamp.
- B2. seminar , tutorial & attitude assessment
- B3.

### Teaching and Learning Methods

Giving a brief overview about the subject to be clinically trained with training them to conduct clinical examination and clinically diagnose the disease in ophthalmic diseases

### Assessment methods

#### **A. Continuous assessment 10%**

- |                                   |     |
|-----------------------------------|-----|
| - Quizzes, seminars and tutorials | 5 % |
| - Midterm examination             | 5 % |
| - End course clinical examination | 20% |

#### **B.**

- |                                      |            |
|--------------------------------------|------------|
| <b>End module OSCE</b>               | <b>20%</b> |
| <b>End module theory examination</b> | <b>50%</b> |

- C. Affective and value goals
  - C1. clinical activity (Case presentation & evaluation)
  - C2. clinical skills
  - C3. seminar , tutorial, Lectures
  - C4.

Teaching and Learning Methods

Clinical training at Al-Kindi Teaching Hospital, Surgical Consulting Clinic for Ophthalmology and Eye Specialty Center (field visits)

Assessment methods

Examination and evaluation of students on methods of taking a medical history, conducting clinical examination, diagnosis and treatment of common cases of eye diseases

- D. General and Transferable Skills (other skills relevant to employability and personal development)
  - D1. Clinical training at the Ophthalmology Consultation Clinic
  - D2.
  - D3.
  - D4.

Teaching and Learning Methods

Clinical training at Al-Kindi Teaching Hospital, Surgical Consulting Clinic for (Ophthalmology and Eye Specialty Center (field visits)

Assessment Methods

Examination and evaluation of students on methods of taking a medical history, conducting clinical examination, diagnosis and treatment of common cases of eye diseases

11. Programme Structure				12. Awards and Credits
Level/Year	Course or Module Code	Course or Module Title	Credit rating	
				Bachelor Degree Requires ( x ) credits
5 <sup>th</sup> year	S.Oph 2504	Ophthalmology module	2.66	Theory 20 hr Clinical 40 hr

13. Personal Development Planning
By using the library, photo and video library, and the Internet Development of communication skills
14. Admission criteria .
Students of 4 <sup>th</sup> stage

## 15. Key sources of information about the programme

- Clinical ophthalmology ,7<sup>th</sup> edition BY JACK J Kanski. Elsevier ,2011.
- Clinical optics .3<sup>rd</sup> edition by Andrew R.Elkington .1999 .
- Practical ophthalmology.1<sup>st</sup> edition by Ziena Mohammed . Dar Al-Murtada .2011

## TEMPLATE FOR COURSE SPECIFICATION

### HIGHER EDUCATION PERFORMANCE REVIEW: PROGRAMME REVIEW

#### COURSE SPECIFICATION

This Course Specification provides a concise summary of the main features of the course and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. It should be cross-referenced with the programme specification.

1. Teaching Institution	Akindy Medical College
2. University Department/Centre	Department of Surgery
3. Course title/code	Ophthalmology module of 5 <sup>th</sup> year
4. Modes of Attendance offered	Program of the scientific committee for examinations in the College of Medicine
5. Semester/Year	Year
6. Number of hours tuition (total)	60
7. Date of production/revision of this specification	21/10/2020 revision for 2020-2021
8. Aims of the Course	
	1- Providing students with basic information for Ophthalmology and providing them with basic information to treat diseases of eye
	2- Training students on how to take the history of disease and clinical examination in outpatient & surgical words
	3- Personal development in the photo- library and computer

9. Learning Outcomes, Teaching ,Learning and Assessment Methode

A- Cognitive goals .

- A1 Providing students with information about various eye diseases
- A2. Clinically training students on methods of taking a history of illness
- A3. Clinical examination in small groups
- A4.
- A5.
- A6 .

B. The skills goals special to the course.

- B1. Clinical activity (Case presentation & evaluation, clinical skills. Visual acuity assessment ,direct ophthalmoscopy and slit lamp.
- B2. seminar , tutorial & attitude assessment
- B3.

Teaching and Learning Methods

Giving a brief overview about the subject to be clinically trained with training them to conduct clinical examination and clinically diagnose the disease in ophthalmic diseases

Assessment methods

Examination and evaluation of students on methods of taking a medical history, conducting clinical examination, diagnosis and treatment of common cases of eye diseases

C. Affective and value goals

- C1. clinical activity (Case presentation & evaluation)
- C2. clinical skills
- C3. seminar , tutorial, Lectures
- C4.

Teaching and Learning Methods

Clinical training at Al-Kindi Teaching Hospital, Surgical Consulting Clinic for (Ophthalmology and Eye Specialty Center (field visits

11. Infrastructure	
1. Books Required reading:	Clinical ophthalmology+ A self assessment J.Kanski 2007+
2. Main references (sources)	<ul style="list-style-type: none"> <li>• Clinical ophthalmology ,7<sup>th</sup> edition BY JACK J Kanski. Elsevier ,2011.</li> <li>• Clinical optics .3<sup>rd</sup> edition by Andrew R.Elkington .1999 .</li> <li>• Practical ophthalmology.1<sup>st</sup> edition by Ziena Mohammed . Dar Al-Murtada .2011</li> </ul>
A- Recommended books and references (scientific journals, reports...).	American academy of ophthalmology+ clinical optics text book
B-Electronic references, Internet sites...	Google scholar

## 12. The development of the curriculum plan

- To increase the number of clinical hours with more hands on clinical skills.
- divided the students into small groups teaching
